Captain Erwan Le Rouzic said: “I was excited to be able to show the passion and commitment we go to on The World's First Discovery Yacht. It's still very mysterious for many people, how we operate an expedition yacht and the complexity of what's happening on board at all times during the voyage.”

Expedition Operations Director Jason Flesher offered: “For me, being part of a project like this was very humbling, and very exciting. No other expedition ship provides the diversity and depth of immersive experiences. We are the pioneers with helicopters and submersibles, exploration with our inquisitive guests seeking adventure.”

VP Hotel Operations Chef Tom Goetter said: “It's great to show the culinary aspect of *Scenic Eclipse*. It is not only an incredible Discovery Yacht on a global expedition, but we also take guests on a culinary journey to explore a diversity of cuisines too. I'm really happy to have the opportunity to introduce my chefs to the world and showcase luxury cruising in a different light.”

The five-part docuseries includes *Scenic Eclipse*'s epic voyage to Antarctica from San Diego. Highlights include an emotional hike in Guatemala, a cacao mission in El Salvador, strong currents in Costa Rica, a visit to Deception Island and its penguins, guests setting foot on land for the first time in Antarctica, an unforgettable penguin expedition on Danco Island, a search for 10,000-year-old glacier ice to make an Antarctica-themed cocktail, the expert navigation of Lemaire Channel and, of course, the 'polar plunge', with crew and guests swimming in the ice cold waters.
